

Lean el capítulo 1 de:

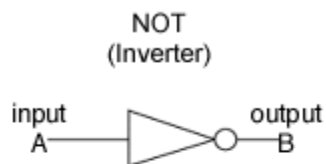

<http://neuralnetworksanddeeplearning.com/chap1.html>

Mediante el uso de perceptrones, se pueden crear compuertas lógicas.

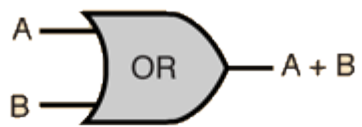

Ejemplo:

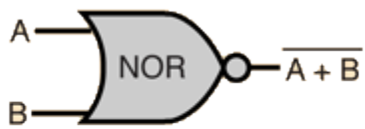

Utiliza los perceptrones para generar las siguientes compuertas lógicas:

A	B
0	1
1	0

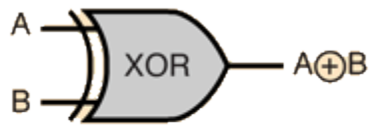

A	B	Out
0	0	0
0	1	1
1	0	1
1	1	1

A	B	Out
0	0	1
0	1	0
1	0	0
1	1	0

A	B	Out
0	0	1
0	1	0
1	0	0
1	1	1

A	B	Out
0	0	0
0	1	1
1	0	1
1	1	0
